Offer details

1. This is a fixed price offer for a limited set of functionality. Customization is possible starting from *Stage 2* and will be calculated separately.
2. Branding includes logo and color scheme customization according to a brand book. Logo sources and brand book are provided by a client.
3. Platform is deployed on Amazon Web Services. AWS fees are not included in the pricing and should be paid separately by a client. Monthly estimates for a recommended AWS setup at the pre-launch stage is 100-500 EUR, and 500+ EUR at the production stage.
4. Cryptocurrency integration requires a Coinpayments account (<https://www.coinpayments.net/>).
5. Fiat integration requires a fully functional account provided by a client and a sandbox provided by a fiat gateway. The fiat gateway should have open API and allow the depositing, withdrawing and transferring operations via API.
6. IdentityMind integration requires an IdentityMind (<https://identitymindglobal.com/>) account provided by a client.
7. One-time payment for each stage is paid in three installments at the beginning of each stage (can be combined into one payment).
8. Monthly fees are paid at the beginning of each month. It is possible to make advance payments for 3, 6, 12, 18, 24 months upfront.
9. Platform turnover fee is paid at the end of each month.
